IT Onboarding and Offboarding Guide

This guide covers the complete IT onboarding process for new hires, account provisioning, remote work setup, and employee offboarding procedures.

1. New Employee IT Onboarding

1.1 Before Your First Day

Your manager should submit the IT new hire request at least 5 business days before your start date. IT will prepare:

- Active Directory account: username format is firstname.lastname.
- Email account: firstname.lastname@company.com
- Laptop imaging with OS and standard software pre-installed.
- Security badge access for building and server rooms as needed.
- Software license assignment: Microsoft 365 and role-specific tools.
- Hardware kit: laptop, docking station, keyboard, mouse, headset, and power adapter.

1.2 Day 1 IT Checklist

- Collect your laptop and hardware kit from IT, Building A Room 101, between 8 AM and 5 PM.
- Log in with temporary credentials provided by IT. You will be forced to change password on first login.
- Set up MFA at https://mfa.company.com
- Configure Outlook email on laptop and mobile device.
- Install and configure Cisco AnyConnect VPN.
- Join Microsoft Teams and your department team.
- Set up LastPass password manager.
- Complete mandatory IT Security Awareness training at https://training.company.com (due within 7 days).
- Read and sign the Acceptable Use Policy at https://policy.company.com/aup

INFO: You must complete IT Security Awareness training within 7 days or your account will be suspended until completion.

1.3 Week 1 Additional Setup

- Set up developer environment if in Engineering. See Engineering Onboarding Guide on SharePoint.
- Request access to role-specific systems via IT portal. Your manager must approve.
- Set up your floor network printer: Settings, Printers, Add network printer.
- Book an IT orientation session at https://helpdesk.company.com/it-orientation-booking

2. Access Provisioning by Role

2.1 Standard Access Packages

• All Employees: Microsoft 365, Teams, Zoom, OneDrive 1TB, SharePoint read access, VPN, LastPass.

• Managers: Above plus team SharePoint edit, department reports, budget dashboards.

• Engineers: Above plus GitHub Enterprise, AWS Dev account, Docker, JetBrains IDE, database access.

• Finance: Above plus SAP, QuickBooks, Tableau, Power BI, financial SharePoint sites.

• HR: Above plus Workday full access, Greenhouse ATS, LinkedIn Recruiter.

• Executives: Above plus board SharePoint, executive analytics dashboards, higher VPN bandwidth.

2.2 Requesting Additional Access

• Submit via: helpdesk.company.com, Access Request, select system and required role.

• Approval workflow: Your manager then system owner then IT Security then provisioning.

• SLA: Standard access 2 business days. Elevated or privileged access 5 business days.

• Emergency access: call IT Security hotline 1800-IT-SEC, available 24/7.

3. Remote Work Setup

3.1 Work From Home Requirements

• Internet: minimum 25 Mbps download and 10 Mbps upload. Test at speedtest.net.

• VPN: Cisco AnyConnect must be running for access to all internal systems.

• Home router: must have WPA2 or WPA3 security. Open or WEP networks are prohibited.

• Headset: use a wired or quality wireless headset for calls. Laptop speakers are not sufficient.

3.2 Remote IT Support

• Remote support is available via Teams chat, phone, or Microsoft Quick Assist remote desktop.

• Allow remote support: verify the IT technician name before allowing remote access.

• Helpdesk hours: Monday to Friday 7 AM to 10 PM local time.

• Emergency 24/7 support: 1800-IT-EMRG.

• Self-service: most common issues resolved at https://selfservice.company.com

4. Employee Offboarding

4.1 Manager Offboarding Checklist

• Submit offboarding request at least 5 business days before the last day: helpdesk.company.com, Offboarding Request.

• IT will disable the departing employee account at 5 PM on their last day.

• Data transfer: manager must identify which files and emails need to be transferred and to whom.

• Hardware return: all company hardware must be returned on the last day (laptop, phone, accessories).

• Software licenses will be reclaimed within 24 hours of account deactivation.

4.2 Departing Employee - What to Expect

• Access to all company systems is disabled at 5 PM on your last day.

• Email account is retained for 90 days, redirected to your manager for business continuity.

- You cannot forward company emails to personal accounts. This is a data loss prevention measure.
- Return your hardware kit to IT before leaving. A return checklist will be provided.

INFO: Taking company data (files, emails, client lists) upon departure violates company policy and may result in legal action.

5. IT Help and Escalation

5.1 How to Get IT Help

- 1. Self-Service Portal: https://selfservice.company.com - check FAQs first.
- 2. IT Helpdesk Ticket: https://helpdesk.company.com - for non-urgent issues.
- 3. Teams Chat: message @IT-Helpdesk in Microsoft Teams.
- 4. Phone: 1800-IT-HELP, Monday to Friday 7 AM to 10 PM. After hours: 1800-IT-EMRG.
- 5. Walk-in: IT Service Desk, Building A Room 101, 8 AM to 5 PM weekdays.

5.2 SLA Summary

- P1 Critical (system down, security breach): Response 15 min, Resolution 4 hours.
- P2 High (major function impaired, team affected): Response 1 hour, Resolution 8 hours.
- P3 Medium (single user issue, workaround available): Response 4 hours, Resolution 2 business days.
- P4 Low (general inquiry or enhancement request): Response 1 business day, Resolution 5 business days.
